📍 Santa Clara, CA

SKILLS

○ JavaScript   ○ GIT

○ HTML   ○ C++

○ CSS   ○ Azure Devops

○ React   ○ Oracle Fusion

○ Node.js   ○ Spring Boot

○ Redux   ○ Microservices

CERTIFICATIONS

○ AZ-400: Designing and Implementing Microsoft DevOps Solutions

○ Microsoft Certified: Azure Fundamentals

○ Infosys Certified React Associate

○ Infosys Certified Spring Associate

○ Infosys Certified Software Programmer-WebIDE

○ Front-End Web UI Frameworks and Tools: Bootstrap

○ HTML, CSS, and Javascript for Web Developers

CAREER OBJECTIVE

Motivated, creative, and ambitious MBA graduate with a passion for Software Development with real world skills and experiences. Team player with a proven ability to collaborate efficiently with team members and senior developers to ensure workloads are streamlined and projects are completed according to their parameters and within timeframes. Passionate about software development and personal growth, I have attended hours of coding bootcamps to learn new languages while sharpening existing skills. Eager to join an engineering team and apply my passion for coding to develop quality solutions.

- Strong experience in implementing SAP CI integrations with different systems. Proficient in n-tier application design and development of Object oriented and web-based Enterprise application using Java, Spring and working on complete System Development Life Cycle(SDLC).

- Implemented problem statement simulating an enterprise application using Spring Boot, Spring Data and Spring REST. Strong understanding of common API technologies, such as OAUTH, Spring Boot and Microservices.

- Proficient in web development technologies like HTML5, CSS3, JavaScript, React JS, node JS. Leveraged the Bootstrap framework and grid system for responsive web design.

WORK EXPERIENCE

Associate

Infosys

📅 July 2022- Current   📍 Bridgewater, NJ

Project: SAP CI -Taulia Babelway migration ton SAP - July 2023 to DEC 2023

  ▪ Developed Integration flows with message mappings according to the requirements such as .txt, .xml, .cxml, .edi, EDIFACT, .csv files being submitted by suppliers using SFTP, HTTP, mail.
  ▪ Worked on complex mapping logics using groovy scripts.

○ Microsoft Azure: Got trained and certified in Azure DevOps and Azure Administrator using Microsoft provided virtual training.

○ React.js: Developed web apps with reusable multiple components. Created high-performance web apps by maintaining data flow in a single direction and interactive rich web apps using bootstrap and CSS.

○ Microservices: Converted monolithic "InfyTel" project into microservices using consul, Spring Cloud, Load Balancer, Spring Cloud Gateway, Config and Resilience4j.

Oracle Fusion QA Analyst

William Sonoma Corporation

📅 Nov 2019 - May 2020   📍 San Francisco, CA

○ Responsible for testing around 30 integration and interfaces interacting with Oracle HCM modules.

○ Prepared Test Plan, Test strategy, Test Scripts, Requirement Traceability Matrix, Defect Tracking through JIRA.

Oracle Functional Analyst

HCL Technologies

📅 Jan 2019 - Mar 2019   📍 White Plains, NY

○ Conducted meetings with clients to understand existing business requirements and Conference Room Pilots to demonstrate business flow with Oracle Cloud to clients.

○ Responsible of preparing minutes of the meeting with action items and documented requirements in BRD.

○ Responsible for maintaining configuration decks, AP and AR setups, worked on Security console and Financial Reports using Oracle Transactional Business Intelligence (OTBI).
